

# Electronics and Telecommunication

1. GSM based Automatic irrigation System
2. GSM based Street Light Control
3. Cryptography algorithm based army communication
4. Sms based traffic signal changing system
5. GSM based system for Railway
6. Gsmbased earthquake detection and alert
7. Sms based street light on off system
8. Gsmbased Theft Monitoring & Control 89c52
9. GSM 8 Channel Fault Announceator with Fault Kit
10. Gsmbsed Automatic Power Meter Reading
11. Smsbased mobile tower Fault indication system
12. Dtmf base voice interactive Device control system
13. GSM based Accident Alert System
14. GSM based Notic Board
15. Gsmbased Theft & Automatic Meter Reading System
16. Smart Hotel Management
17. GSM Wireless Dam Control
18. E-ticket with GSM
19. Intelligent voltage regulator with overload and under voltage protection
20. Automatic street light control system
21. 3phase condidtion based parameter monitoring and control
22. Study & Navigational glove for Bilnd
23. Rfid based Virtual shuffling Touch screen Keypad For ATM
24. 3 power house parameter monitoring ,controlling and fault alert system
25. Telephone Controled Switch with Voice
26. Earthquake Detector For Railway Line with GSM
27. Traffic Light Control using GSM
28. Inteligent Security System GSM RFID Door
29. Wireless Energy Meter
30. Scheduled based load on off system
31. Microcontroled based temp,light,fan control
32. RFID Door Security System with Password Protection
33. Spy Guard RFID Secuity 10 log System using RTC
34. Manless Petrol Pump GSM
35. Gsmbased Password Engin Lock System & SMS Alert
36. Laser based Device Control 89c52
37. Engine Oil Purity indicator Colour Sensor
38. RFID Attendance System
39. Modern House
