

ELECTRICAL PROJECTS

1. prediction and prevention for railway accidents System
2. Mobile based streetlight on of system
3. Mobile based traffic light on of system for firebrgate solar based intelligent street light system
4. Timer based load on off system
5. 3phase Over volatgae and under voltage protection and alert system
6. Power house monitoring and grid control system
7. random number algorithem base secure Touchscreen keypad with RFID
8. intelligent Automatic Fault detection and Alert system for BTS mobile tower
9. 3Phase and 1Phase device control using ivr (voice)
10. Intelligent Water distribution system For Gov Sector
11. Automatic meter reading System With Meter Control Facility
12. Blutooth Based 3phase And Single Phase Control system
13. intelligent Door Security System
14. Automatic Grid Fault indication and Control System using Pc
15. LetterBox ,gate , car monitoring and alert system
16. inteligent antisleep system for driver
17. encryption and decryption communication system for Army
18. Design and Implementation of a New Onload Voltage Regulator for Power Distribution Systems
19. Virtual Shuffling Keypad for secure ATM with Seven Segment Touch screen
20. Inteligent traffic Light Control using TWO RFID
21. GSM 8 Channel Fault Announceator with Fault Kit
22. RailwayTunel Automatic Light Control System
23. Voice Enable Device Control Four
24. e-street
25. Intelligent traffic Light Control using TWO RFID
26. Power Gride Control
27. internet Based Wireless PC device Control GSM
28. inteligent Security System GSM RFID Door
29. Wireless Energy Meter
30. RTC load Management 89c52 with Four LOAD
31. Gsmbsed Automatic Power Meter Reading
32. Eye Tracking based Driver Fatigue Monitoring
33. GSM based Notic Board
34. RF based Scrolling Messge Display
35. Telephone Controled Switch with Voice
36. Highway speed sensing & automatic breaking sys
37. Microcontroled based temp,light,fan control

Website :-www.nashikprojects.com

38. GSMbased Theft Monitoring & Control 89c52
39. Earthquake Detector For Railway Line with GSM
40. Voice Enable Device Control four device 1 motor,3 holder
41. Heartbeat & Bodytemp Monitoring System
42. City Water Distrubution
43. Inteligent Gride System(IGS)
44. Smart Hotel Management
45. e-ticket with GSM
46. GSM based Automatic irrigation System
47. RFID Door Security System with Password Protection
48. Spy Guard RFID Secuity 10 log System using RTC
49. Microcontroled based temp,light,fan control(Green house)
50. Bluetooth Wireless 1h,3h Device ON /OFF
51. Figer print Attendance System
52. Secure Communication between Army Station
53. Manless Petrol Pump GSM
54. GSMbased Device Control
55. Put Coin & Draw Power
56. GSM based Street Light Control
57. LPG Lekage Detection & Auto ON OFF Gas system
58. modern House
59. Solar Tracking System
60. Bilnd Stick LDR,Dry ,iR Voice
61. Ultrasoni Level Mesurment
62. Digital Code Loc
